Viral Survival

Synopsis

A young couple believes they have the world by its tail as they live happily together in their somewhat rural Minnesota home. Though they see possible economic problems ahead for many parts of the world they are at least somewhat prepared to weather that turmoil. Then they and the whole world are blind-sided by a pandemic of epic proportions. Though they manage to survive the virus they now find they are living in a completely different world. Surviving the virus turns out to be only the first step in their new life. As always in my stories there is no foul language or explicit sex though there is some violence. My stories are only meant to provide an afternoon or evening of reading enjoyment. I now employ a professional editor to hopefully catch the errors in my writing.

Customer Reviews

Pete is not the best writer. I do like his stories though for other reasons. He writes so that a 12 year old could understand the message...which for adults could be irritating. Also his characters are not really well developed. However he does bring up prepping things that I have not thought of and for that the books are worth reading. I do wish he would bump it up to a more educated reading experience though.

I always enjoy his books. They are well written for this genre. Its nice to read something without alot of sexual situations or cursing. Just normal people trying to survive doing the best they can.

Another good story by Pete Thorsten. I deducted a star this time due to some proofreading errors and more of his "with" use. Not sure of the publication date of this book as compared to the one I read this morning that seemed to be better edited. Some good Prepper tips which is why I read these books. Nice quick read to take a break from ranch chores in the heat of the day.

I usually love Pete's Tales, but not this one. I have stayed up to the wee hours of the morning reading Pete's stories, but I had to force myself through this one. I would normally enjoy putting myself in the characters position and deciding what would I do.
