This is a wonderful book, and long overdue! Celia Ross is an experienced business librarian who also teaches ALA's Business Reference 101 online course. In this book she covers all aspects of business reference and makes it easy for even a beginner. (Just take the book to the reference desk and check the handy index any time you're stumped--no more dry mouth and brain-freeze!) Not only does she point out the best (and sometimes free) resources, she also equips you with

quick strategies for company, industry, market research, financial and raw data type questions. I've been doing business reference for fifteen years myself and this book is a great refresher for anyone in the profession. It is now my go-to guide for stumpers, great free websites, and even reassurance that I haven't "missed anything." Celia Ross been there and she gets it!

This is exactly the book that I needed for work. It's a great resource for business reference and I'll refer to it often.
