Customer Reviews

This Kindle edition of the Urantia Book includes the Standard Reference Text ... the result of years of effort, making small corrective revisions - for mainly spelling & grammatical errors - to ensure the text is not confusing to readers. The 300 page Index is an incredibly helpful inclusion for everyone - casual readers and confirmed believers alike. This additional material, plus the length of the literature itself, can require a longer download time than usual. Now some reviewers' complain about the numbering system used in the Index - it actually is easy to understand... For example, 31.7.4 indicates: Paper #31 (The Corps of Finality) Chapter #7 (The Evangel of Light) Verse #4 ("We of Uversa often conjecture...") The content of this 5th Epochal Revelation is "thick with meaning" - yet its spiritual value and nourishment is well worth careful, conscious, open-minded reading. Hint: it

really helps to have a dictionary and a Urantia Book Glossary (easily found online) at-hand when reading. I use this Kindle edition when I'm "out & about" - it sure beats hauling the 3 1/3 pound book around with me! When I come up on words I'm unsure about, I can simply use the highlight & functions, then look them up later later at home. For new readers, it's often suggested to start with Part IV, The Life and Teachings of Jesus - before reading the book from beginning to end. I agree, it really helped me to have a substantially accurate perspective when I first started reading the whole book front to back. Now, there are theological differences between the various established Christian denominations and the Urantia Book.

First this is a long book, over 2000 pages but we'll worth the reading!! Second it's a very religious book, but is considered heresy by almost all ministers in all Christian churches. The heresy part is who the book says Jesus really is and His conception and birth. The Urantia (this is the name for earth in this universe) book says that Jesus is a creator son and not the Trinity Son! A creator son is a son created by the Father and the Son together to be the creator of this universe and its life forms. Jesus real name is Michael and this is backed up in Daniel and Revelations. In Revelations you have to stop and think a little bit but it's there if you put the pieces together like why would the Trinity son come down to earth to defeat satan when Michael has defeated him in all the heavens and cast him down to earth as his last stand. Getting back to Michael as a creator Son. Our universe is 13.7 billion years old by the latest estimates, how many universes has our Father created in the past billions? Trillions who knows? And with millions of habitable planets in each why would the Trinity Son come to ours to defeat someone who has already been defeated in the universe. This book makes sense to me plus there is so much more to it than I've said. It also contains all of Jesus life here on earth! Read the reviews on it first. The last time I checked it had a 4.5 out of 5 rating or 9 out 10 people really liked it including some Biblical scholars. Should you opt for a Urantia book I like the Urantia foundation version (with the tree on the cover) it has the words of Jesus in red just like the Bible. Urantia also points out errors in the Bible in that things didn't happen the way the Bible said they did, and Urantia makes more sense because their version is plausible.
