Barbarian's Touch: A SciFi Alien Romance (Ice Planet Barbarians Book 8)

Synopsis

When I wake up on the ice planet, I'm scared of everything: this place is cold, silent, and the locals look more like blue devils than aliens. To make matters worse, one of the strangers decides I'm going to be his girlfriend and kidnaps me away from my sister. I'm completely and utterly alone. What's a girl to do? Well, this girl escapes. Of course, that means I go from frying pan into the fire, and my situation gets even more dangerous. Just when I have no hope left, a new hero appears. Sure, he's blue, horned, and has a tail. He's also fierce, protective, makes me purr...and thinks I'm perfect. But is what we have real or just a mating instinct? Customer Reviews

This is one of my favorite series that I've discovered in the last few years but the individual books

are hit or miss for me. Sometimes I love them, and sometimes not so much. This one hit it out of the ballpark for me. In the original I.P.B. book, a large part of what I found so endearing is that the main couple couldn't communicate for most of the book. In this story, the female lead Lila is deaf, without her hearing implants the struggle to communicate with the protagonist Rokan is present again. Their interaction isn't as humorous as Georgie and Vektal's was, but I liked it nonetheless. The twist introduced with the volcano was really interesting and I can't wait to see how relations with one of the main nemeses of the Sa-khui tribe develops now that new knowledge about the Metlaks has come to light. I enjoyed seeing Lila develop over the course of the book, starting out very hesitant and shaken from suddenly losing her hearing again to taking control of her new life on a frozen alien planet. The erotic scenes are a much slower build up in this book but they don't disappoint and the lack thereof is part of the plot line.

I really love how thereâ™s still so much to be discovered on this planet. Dixon continues to make this series so much more than erotica, itâ™s sweet and exciting, and I love how the characters grow in each story. With Lila being deaf, it also added a new dimension to the experience, because as sheâ™s separated from her sister no one is able to communicate with her. Rokan was an interesting choice against her, since sheâ™s missing one of her senses and he has a 6th sense with his knowing. I mean weâ™ve heard about him in the previous books, but heâ™s always just been more off to the side, so it was great getting to know him. Plus Lilaâ™s attention to the slight nuances of peopleâ™s movements gave new insight into the metlaks, and Iâ™m kind of sad we didnâ™t really learn more about them, though it would be hard at this point to make them out as anything other than savage beasts, but it was still an intriguing look into more of the animal life of Not-Hoth. Though, mostly Iâ™m wishing sheâ™d do a book for Asha and Hemalo to maybe figure out how to make things work with each other.

This is another great ice planet barbarian novel by Ruby but it has a twist that makes the story new and interesting . Lila and Rokan are awesome characters and work wonderfully together . This whole series is amazing !!

I have been hooked since I first stumbled across Ruby and her blue barbarians. Hot, hunky, horned in more ways than one, they are Aliens with swagger. Each time there is a new release, full length or novella, I am all over the preorder link making sure that as soon as it releases its downloaded to my kindle app. Rukan is sweet, patient and makes me wish for one of my own. Lila starts off scared

and struggling, not surprising, it's tough being abducted by Aliens and waking up on an ice planet, learning your not alone in the universe. Add in her hearing impairment, things are a bit much to take in. But she grows, she strengthens and blossoms while in the company of her mate becoming someone strong and willing to learn what it takes to live on the planet she now calls home. Add in some twists and turns Barbarian's Touch is another fine example of how creative Ruby is. I cannot claim a favourite story in this series as I love them all equally. I suspect the next story will be interesting to say the least, sparks are going to fly if my guess is correct. Keep up the great work Ruby.

Blue, horned, tailed alien who couldn't love him? We learned a little more about our Ice Planet. Metlocks are a little more than filthy teddy bears. Plants can grow under special circumstances. But as always we learn about the nuances of love. No matter what your fears tell you, what you think makes you unlovable, we learn you can and will be loved. Read every single book.

I really enjoyed this one, it's sweet, funny and entertaining. The author does a great job in conveying the feelings of a sudden hearing loss, (our heroine loses her hearing implant,) and all in all it's great to follow her journey towards independence, self-esteem and being able to believe in love. Both the hero and the heroine are quite believable, and their journey is both sweet and thoughtful at the same time. My only concern is that there are a few spelling mistakes. Only two or three, and it's easy to see why they are there (bla instead of but,) but for me as a "english is not my native language" person, it makes it a bit confusing since I have to think about if it is a misstake or not. As a small afterthought, I would really, really love to read Asha and Hemalos story!

Fun, happy brain candy!!!! Is it The Bell Jar? No. Is it going to spark a national controversy? Solve racism? Expose multinational corporations for their unethical treatment of animals? No. No. Still No. Is it going to make you feel good all over, curl your toes, and make you laugh a bit? Yep :) Totally fluffy, lovey dovey series with just the right amount of rude comments, sass, violence & animistic sex. There is nothing wrong with indulging in candy. Life is too short to be serious all the time anyway :)
