Trance: Formation Of America

Synopsis

This is the documented autobiography of a victim of government mind control. Cathy O'Brien is the only vocal and recovered survivor of the Central Intelligence Agency's MK-Ultra Project Monarch mind control operation. Chiseled deep into the white stone of the CIA's Langley, Virginia headquarters is a partial verse lifted from the Holy Bible and writings of Saint John... ""and the truth shall set you free." This statement, like the agency, is total reality. The building that it is engraved upon houses the world's most successful manufacturer of lies to facilitate psychological warfare. The "Company" uses truth and technology as their raw materials to produce "pure" lies for control of you and America's allies.

A century ago a book such as this would have been a call to the barricades. Today with the state as powerful as it is, this book simply makes you want to leave the United States and let it rot. For those who haven't read the book, O'Brien's story is one of a survivor of a CIA-sponsored program called MK Ultra, which aimed to explore the limits of human "suggestibility." The program began following World War II, when numerous top Nazi scientists resettled in the United States, at the invitation of the CIA, to continue their research into mind control. The project was based upon the research finding that if a person is severely traumatized, he or she will "split" off a "multiple personality" as a defense mechanism. It was those "multiples" that CIA scientists sought (successfully) to "program." Today thousand of people exist as mind-controlled slaves whose "programs" for various activities,

such as performance in pornography films, prostitution, message carrying, and drug "muling," can be "accessed" by their "controllers" by cryptic keywords. A reader curious about O'Brien's book should be forewarned of the exceptionally bizarre nature of its revelations. In fact, at least in my view, the revelations are so bizarre, it would probably be a bad move to read this book without first reading something that "builds" up to it. A good primer on the subject would be John Decamp's The Franklin Cover-Up. Those who do read the book and are of sufficient independent thought to see through the haze of disinformation put forward every day by the state-influenced newspapers and magazines and see the truth in O'Brien's book are placed in a difficult position.

I knew Cathy O'Brien as a fellow government mind-control victim in the more distant past. We briefly reconnected in the mid-90s when I was encouraged to hire her common-law-husband, Mark Phillips, to deprogram my mind. Although my subsequent experiences with him were very negative and unhealthy, I am reasonably certain that the majority of Cathy's recollections in *Trance Formation* are probably valid. By using numerous personal examples, she does an excellent job of explaining how trauma, hypnosis, and Neuro-Linguistic Programming (metaphorical language) are effectively used by expert mind-control perpetrators to dissociate and control the minds of victims - from childhood on through adulthood. Because I waited until I'd remembered the bulk of my own traumatic experiences before reading her book, I successfully avoided memory contamination. Having journaled thousands of emerging memories, I was quite surprised that many of the phrases - containing metaphorical, double-meanings (NLP) - that had been used to control my mind, were exactly the same ones that she'd remembered! (My memories didn't come from Mark; I'd remembered and journaled most of them before hiring him.) Regardless of the identities of the alleged perpetrators whom Cathy names, the information that she provides about the use of mind-control "language" (combined Eriksonian hypnosis and NLP) can be very helpful for professionals working with mind-control survivors - if nothing else, as a translation guide. I would not use the book for more than that, however.

The *Tranceformation of America* is a shocking book, but one which, I have to believe, contains much truth. I saw and experienced much of that sort of thing (not to the same degree) in Massachusetts during the Reagan/Bush years. I saw high-level academic, media, political and church figures engaged in a collusive sexual abuse, exploitation, manipulation (terror) network, which included voyeurism, surveillance, twisting of information, lying and slander, pillage and even worse (if they could get away with it). I have to believe that actual slavery, abuse of children,

indulgences on every level, and crime (as described in this book) are true. Those who - through the media - project themselves as being the most respected are, in fact, the most wicked. What is especially timely about this book is that Ms. O'Brien mentions George Bush Sr. and Jr. repeatedly, and we are facing an election with George Bush Jr. If the American public were to read this book, they would never let him into office. According to Ms. O'Brien, he participated in - and covered for his father in - mind-control activities, abuse of adolescent females, implementation of New World Order police tactics (Lake/Mount Shasta compound in California), cocaine, heroin and white slavery trafficking, and money laundering. He was an integral part of the New World Order plan of creating chaos and mass mind control to dupe the masses, so as to usher in elite rule. One has to question how he could be spontaneously declared the front-runner and pick of the Republican establishment from day one, when he had done nothing. Was it because he will facilitate their excesses and wrongdoing - because he's their man??? It is very frightening territory - and this is a frightening book.
