Customer Reviews

With all the typos and grammatical errors in the first book, it was a real burden to make myself read on. Now I can say that I'm really glad I did because the Athena Lee chronicles and related short stories have been the most entertaining thing I've read in a while. I applaud the author's liberal use of hilariously quirky pop-culture references that more often than not have people giving me strange looks for giggling like a fool. The only issue I have is that the books are too short for the price. However if you get the chance to read them, definitely do.

Great Writing and w Love the Fun and humor spice in these books!Great characters that I am always wanting more to read.Thank Goodness You are a quick and imaginative writer!Thank You infinitely!

Althena Lee is the protagonist in the series. Wilson is very important. So this was fun. This series is not evenly serious and is more "people" oriented than tech oriented this particular book is way sillier and less serious. Great fun. I have read 1-6 and they are more space opera and serious. This is a welcome interlude. Now I'll read 7-8 with a better background

Yep ya did it. I don't often read short story add on books. Quite the collection here. Maybe Wilson needs his on set of books? Since he split himself off all you need is the flavor of him meeting himself accidentally.

I always wondered why Wilson wanted a cat. Now I know why. :) If you like the character (which I do), then check out this book.

Great read. Alot of fun.
