# Learn How To Do Witchcraft Rituals And Spells With Your Bare Hands (Witchcraft Spell Books Book 1)

## Synopsis

Witchcraft and magic are very real. These practices have existed as precise sciences for thousands of years. More importantly, every single person can learn to do witchcraft and magic. We are all born with the talents and abilities that empower us to do the rituals and spells in this book. In the distant past, studies in witchcraft and magic were just as important as math, science, or the arts. This book is the first in a three-part series dedicated to spreading the knowledge of practical witchcraft and magic around the planet. ## Customer Reviews

I feel that Mr. Joel is a sincere practitioner in what I would qualify in this book as "Earth Based" magic which is similar in form to a lot of Wiccan traditions. This particular book has a lot of good advice for someone just starting out on the path, and a couple of brilliant ideas that seem to combine both Native American and Chinese philosophies. One thing that I had never seen other than perhaps mirrored in the Chi sense in traditions such as Tai Chi was the recommendation of making a water bowl. The absorption pattern is very similar to the movements made in Tai Chi, and makes sense elementally and is quite an insightful, original way of accomplishing the end sought. I thought that I might find the cats annoying at first, but they are tastefully done and do not interfere with the flow of the text. The only "gripe" I have with the book at all is that I feel that the "rules" were laid out a little too close to the middle. The beginning seems to paint a picture that you can use magic and such for whatever you want, but by the middle we learn it might be a good idea to make sure the spirits agree with what one is about to do so as not to step on any karmic toes. Another law that I think is important although not necessarily mentioned is the law that there must be balance--if you ask for favors it should not surprise you much that favors will likely be asked of you in return. So yes, you may be able to gain your parking space, but down the road you may be asked to do something of no apparent benefit to you, and it would be wise for you to do it. If you take, you must give. I literally laughed out loud at the encounter the author has with a storm spirit.
