This is one of those books that I own by Osho that I get mad at myself while reading it, only because I have chosen to live naively for so long. I forget what I read because of this. Does that make sense? Probably one of his top 10 classic texts to own. This book has been reprinted through at least two different publishers, probably more. It is that good.

Excellent condition for used book. Thank you so much...this book is hard to find in this condition. Osho puts out a lot of thought provoking analogies which stick with me. As a Westerner, I don't agree with it all, but I do appreciate exposure to the Upanishads in a way I can 'digest' them. This book is only for a seeker. Do not read if you have already confirmed your sentient belief system.
