Gladio, NATO's Dagger At The Heart Of Europe: The Pentagon-Nazi-Mafia Terror Axis

Synopsis

In this "non-fiction corollary to Larsson's Millenium Trilogy," wet works and false flags keep Europe a colony of the US. Leaders are murdered, movements are subverted. Under the surface, the empire rules by death squads, as it always has south of the border. The attack on Libya laid bare the iron fist within the velvet glove of slogans such as "humanitarian intervention." Like the destruction of Yugoslavia and the rape of Afghanistan, the reduction of Libya to a virtual slave colony was performed under the banner of NATO. And what exactly is NATO? Richard Cottrell tells the story of mayhem and murder behind the "alliance for peace," and predicts an emerging military colossus fighting to seize control of strategic resources such as oil, gas, minerals and water anywhere on the planet. Masquerading as a rear guard against Soviet invaders, NATO's covert forces warped into psychological and physical terrorism. These were the years of lead, in which hundreds perished in a synthetic war in the streets of Europe. NATO commander General Lyman Lemnitzer ordered serial attacks on French president Charles de Gaulle. Sacked from the Pentagon by John F. Kennedy for rank insubordination, then exiled to Europe, Lemnitzer reaped revenge in Dallas. The secret armies forged bonds with organized crime and neo-fascists. NATO-backed coups struck down governments in Greece and Turkey; the island state of Cyprus was sundered amid bitter genocide. Urban guerrillas like the Red Brigades and the Baader-Meinhof Gang were cunningly manipulated. Italy gained a deep-state government, the ultra-secret P2 pseudo-Masonic lodge, founded by former Blackshirts. Swedish premier Olof Palme and Italian ex-PM Aldo Moro were assassinated. Pope John Paul II was shot by Turkish gangsters who had regular work as Gladio guns for hire. In 2009, a Gladio copy-cat outfit codenamed Ergenekon came to light in Turkey. The shootings in Norway in July 2011, and in Belgium, France and Italy in 2012, all bore the classic stripe of Gladio false-flag operations.

PLEASE NOTE: PER ITS CUSTOMER REVIEW POLICY, EDITORS HAVE REMOVED THE RELEVANT URL'S THAT I PROVIDED TO SOURCE MATERIAL AND REPLACED THEM WITH "[...]".As someone who shares many fundamental elements of Cottrell's worldview, I found this book a great disappointment. Those who do not already understand the topics that he discusses will be immediately repelled from it, and for the best of reasons. Someone like me who wants to learn more of the core details of state-controlled and state-sponsored terrorism used as the pretext to justify seizure of ever more of our civil liberties finds little more than bombastic opinion.Cottrell's "writing" sounds like his gabbing to a pal on the phone who then has his precious words transcribed and published largely as is. The "analysis" offered varies between adolescent name-calling and Hollywood gossip-column potshots with rarely if ever a coherent historical narrative. In a book that cries out for reliable sources and citations of bold claims, there are few if any. This might not be so bad if at least the book had its facts right, but it often does not. Thus a newcomer to this essential area of history will be put-off and likely offended, equating the immaturity of style with a fatuity of its claims.Readers interested in understanding the general topic of the modern "democratic" nation-state as a criminal enterprise that is busy up to its eyeballs in domestic covert ops, including state-sponsored domestic and also international terrorism, can learn a great deal more from the following three books and one movie: James W.
