I'm reading Susan Abel Lieberman's "The Mother-in-Law" manual, which I ordered (used because I'm BROKE! LOL) from with some doubts. How good could this be? When it arrived just a couple of days after I placed my order, I ripped the box open, cracked the book for a sample reading and ended up sleeping with it. This is a 5 star book - I'm going to give this one to a friend of mine whose son is getting married in October and who is also having some difficulties with her husband's daughters. It's also got stellar sections that are giving me insight to my own difficulties with my aging mother, who I am non-residential caretaker for. No matter if you're the MIL or the DIL, this is a new place we're going, a new process we are going through, and there isn't enough written about it.. and for the most part, society doesn't seem to recognize mother in laws as anything but a bad joke. If you ask for help, you are likely to get blank looks for those who do just do not know how

incredibly important it is to do this as right as you can, attacks from those who have had bad experiences or jokes from those who don't get it. This was a book I needed because, despite my status as a mother-in-law for the past 7 years, I still don't know what I'm doing, how to do it right and don't fully understand how an intelligent woman like myself who loves her son and tries her best to love her daughter-in-law can end up where I have (don't ask). Until I ran into problems recently, I just thought being a mother-in-law was -- a title. The problems you can cause, or be part of it you didn't cause them, are heart-breaking and enormous, no joke!
