Ten Psychic Predictions For 2017

Synopsis

The oceans seem to be angry with us. An ancient treasure is a casualty of California's drought. Hillary Clinton's email scandal goes away -- to be replaced with something worse. Zika spreads to unexpected places. The "Rod of God" keeps an Asian country in line. ISIS leaves Syria, but not without cost. NASA confirms a distress call from another galaxy. Terror attacks take a new form. Donald Trump finds an activity even more profitable than real estate. 2016 was a year of endings, but 2017 will be a year of beginnings. Unfortunately, a lot of the beginnings we will all see in 2017 herald trouble. I'm Suzi Heigel and for the past eight years I have been a part of a group of amateur psychics called the Annapolis Remote Viewing Group. While we do a form of disciplined ESP called remote viewing, this book isn't the product of the military-inspired method of remote perception. It's free form intuition about major events in the coming year 2017. I have to give the other members of the Annapolis Remote Viewing Group and especially my friend Robert Raymondsson credit, because without them I would not have had the targets I have attempted to locate in our near-term future. Robert was also very helpful to me in expressing my thoughts in English. I can't guarantee any of the events I predict here absolutely, positively will happen. In our remote viewing sessions, we are on target about 55% of the time, but once in a while you would think we have to be taking a psychic look at another universe. Sometimes we discover that we are totally off target. Most of the time, however, we have some insight into some issue of our day. What I can guarantee is that you will find all of these psychic predictions for the coming year interesting, and that a surprising majority of them will come true. It's always best, as most of our books will tell you, to use our work as a source of questions, not answers, but I am sure you will find fodder for thought in this 10,000-word book of psychic predictions for 2017.

Customer Reviews

This book is quite interesting, funny and yet kind of almost scary in some aspects. Suzy has a great sense of humor. I'm hoping some of her predictions come true and that others do not. She freely admits that not all psychic predictions come true, which I find refreshing because most psychics don't say things like that. It's definite an interesting read.
